# Survey Results

30% prefer theory-driven, 70% prefer practical. On average, more challenging and real-world relevant than other courses at UR. Overwhelming majority enjoy trading game.

## Likes:

- Organization, notes, Stock|Trak, practical applications, Excel examples, style, passion, review sessions

## Changes:

- Based on feedback, office hours now 20 minutes each. *Email me* if you don't see times that work!
- More opportunities for in-class problem solving with peers.
- Less theory? We are bound by the course material...but we are “leaving theory” now
- Focus more on the practicality? Our guest speaker!

# Independent Project

Goal: run regressions and interpret the betas, alphas, etc. for an ETF of your choice (that you select from the survey).

Tests your ability to work independently (but I provide *plenty* of resources).

*One* exception: let me know if your ETF does not have at least 60 months of return data.

# To Do

- ✓ Problem Set 4 due Friday @ 3pm (budget 2 hours)
- ✓ Independent Project due *next* Wednesday April 10 @ 9am (budget 3-5 hours)
- ✓ Problem Set 5 due following Friday @ 3pm (budget 2 hours).

- ✓ Problem Set 3 **Friday 3/22** @ 3pm. *Late assignments not accepted!*
- ✓ Review Session Monday March 25 @ 4:30pm, room 115.
- ✓ Exam Tuesday March 26.
- ✓ Weekend Office Hours posted
- ✓ Open hours on Saturday and Sunday from 11am – 12 noon.

WSJ

# Best 2023 Funds...

# ...in 2022

# From Vanguard.com:

## **Why tracking error is important**

Tracking error is not how much an ETF's performance deviates from that of its benchmark index for a given period (that's known as excess returns). It's about how much those excess returns oscillate around the portfolio's benchmark *during* that period.

Tracking error is measured as the standard deviation of excess returns over time. It's an indicator of how consistently close or wide an index ETF's performance is relative to its benchmark. For investors using indexed products, any uncertainty around performance adds uncertainty costs. Depending on an investor's investment horizon, this uncertainty cost can be even greater than the expense ratio or trading spread.

# TA4: Options

- Buy \$10,000 worth of calls. Buy \$10,000 worth of puts.
  - On stocks you haven't already traded.
  - Keep positions open at least 24 hours.

*Explain why you're buying options instead of the stock itself.*

- High potential payoffs? Volatile stock? Small premium relative to price?

Complete by Thursday 2/29.

# Coming Soon...

- Trading Assignment 5 (mutual funds/ETFs) *next* Thursday
- Problem Set 2
- Group Project
  - Distributed soon, due at end of the semester
  - In-person presentations during finals week (plan accordingly)
    - 10:30am Section: May 1 from 2-5pm
    - 12:00pm Section: April 30 from 2-5pm

# Problem Set 1

- Due **Friday, Feb. 16 @ 3pm.**
- Print ► Complete ► Scan ► Upload as one PDF.
  - Or complete on an iPad/Tablet.
  - Problem set with answers first, then scratchwork in the PDF.
- Name your file 'V' followed by your version number: **V100** if you are version 100, **V1** if you are version 1.
- Points lost for incorrect naming.
- Late assignments not accepted.
- Working together is ~~ok~~ encouraged!

# Problem Set 1

Finance 366: Investments (Joseph Farizo)  
Problem Set 1

Version: 1

Name: JOSEPH FARIZO Due: 1/1/2000

Write your answers in the boxes below each question. On separate paper or using a iPad/tablet app, neatly show your work for each question. No credit will be awarded if you provide an answer but show no work. When completed, upload as a single PDF file containing these answer sheets and your work with this as the first page. You may use the Adobe Scan app or other similar app on your phone or tablet. Save the file as V# where the # is your version number from the top right of this page. Example: name the file "V101.pdf" if you have Version 101. Upload to josephfarizo.com/assignments.html. Show 4 decimal places (i.e., round 1.23456 to 1.2346 or 10.98765% to 10.9877%).

- Question 1** Jocelyn is interested in purchasing 77 shares of Keysight Technologies, currently trading at \$106. Jocelyn will contribute \$4,815.58 toward the purchase and borrow the remainder from their broker. What is the price to which shares can fall before a margin call is triggered, assuming a maintenance margin of 26%?

PRICE = \$100

- Question 2** Isaac is interested in purchasing 87 shares of Kellogg Co, currently trading at \$94. Isaac will contribute \$4,007.22 toward the purchase and borrow the remainder from their broker. What is Isaac's assets, liabilities, and equity if the shares rise to \$124?

A = \$100 L = \$100 E = \$100

- Question 3** Rose is looking over T-bill quotes online. They see a security with the following information: BID = 0.165, ASK = 0.134, and CHG = 0.004 on a T-bill with a face value of \$30000 and 80 days to maturity. What is the Bid-Ask spread on this T-Bill?

BID-ASK SPREAD = \$100

- Question 4** You construct a price-weighted index of 3 stocks, with an initial divisor of 3. WAC's price is \$400, DRB's price is \$360, and CCC's price is \$40. DRB conducts a 3 for 1 split overnight. What is the new value of the divisor?

DIVISOR = 100

- Question 5** The prices of SkyTech, EchoPro, FlowQ, and IonPulse are \$121, \$120, \$127, and \$106, respectively. Shares outstanding (in millions) for each are 148, 263, 128, and 34, respectively. The prices of SkyTech, EchoPro, FlowQ, and IonPulse change to \$131.89, \$115.2, \$137.16, and \$110.24, respectively. What was the return to an (a) equal and (b) value weighted index of these stocks?

(A) EQUAL RETURN = 100% (B) VALUE = 100%

- Question 6** You purchase 121 shares of Constellation Brands corp at \$110.00. You borrow \$7,586.70 from a broker with a margin loan charging 4% simple interest. The rest you pay for yourself. What is your rate of return after one period if the stock price falls to \$105?

RATE OF RETURN = 100%

- Question 7** You purchased an option that gives you the right but not obligation to sell one share of Western Union Co. At the time of purchase, the option had a strike price of \$210.00, a bid price of \$73.15, an ask price of \$76.87, with a 6/02/2024 expiration date. On the expiration date, the stock is trading at \$310.74. What is the profit or loss in dollars on this option at the expiration date?

PROFIT = \$100

Rate this problem set from 1 to 5, with 1 being "very easy" and 5 being "very difficult." (circle one)

1 2 3 4 5

About how many minutes did you spend on this problem set? 100

$$\textcircled{1} E = mc^2$$

$$\textcircled{2} \begin{aligned} 100 + 100 &= 200 \\ 2 + 2 &= 4 \\ 200 + 4 &= 204 \end{aligned}$$

$$\textcircled{3} \begin{aligned} a^2 + b^2 &= c^2 \\ a &= 3, b = 3 \\ 3^2 + 3^2 &= c^2 \\ c &= \sqrt{3^2 + 3^2} \\ c &= \sqrt{9 + 9} \\ c &= \sqrt{18} \end{aligned}$$

$$\textcircled{4} \dots$$

$$\textcircled{5} \dots$$

$$\textcircled{6} \dots$$

$$\textcircled{7} \dots$$

# Trading Assignment 3

Negative interest rate begins at 4:30pm.

1. Short a stock and set a buy stop (protects your short from rising too high)
2. Long a stock and set a sell stop (sells if price too low)
3. Long a stock and set a sell limit (sells if price target hit)
4. Set a buy limit (buys if price falls to a chosen target)

All new stocks. At least \$10,000 each. It's okay if some orders don't execute. Limits/stops must be between 5 and 15% above/below current price.

# To Do

- ✓ TA3, and get out of excess cash.
- ✓ Problem Set 1.
- ✓ Work additional Excel examples.
- ✓ Prepare for Exam 1: Critical Thinking, Analytical, CFA Questions.
- ✓ Office hours as needed.

# Earnings Season!

- At the end of each quarter, companies with a fiscal year aligned with the calendar year release their earnings (mid-Jan, April, July, Oct).
- **Earnings Calls** - conference calls between investors/analysts and firm management.
  - Financial results (earnings per share = net income / number of shares)
  - Outlook or “guidance”
  - Q&A Session
- Often *after hours* 🌙 or *before open* ☀️ to prevent excess trading volatility and provide equal access to information.

# Trading Game: Trading Assignment 2

- Buy a stock *you don't already own* before they announce earnings.
- See the [NASDAQ earnings calendar](#) to choose.

Time	Symbol	Company Name	Market Cap ▼	Fiscal Quarter Ending	Consensus EPS* Forecast	# Of Ests	Last Year's Report Date	Last Year's EPS*
🌙	MSFT	Microsoft Corporation	\$3,045,146,521,437	Dec/2023	\$2.76	15	1/24/2023	\$2.32
🌙	GOOG	Alphabet Inc.	\$1,937,977,440,000	Dec/2023	\$1.60	16	2/02/2023	\$1.05

- Minimum \$10,000 and 24 hours.
- Deadline: next Tuesday, February 6th.
- Complete the entry in your Trading Journal. Nothing to submit yet.

*Negative interest rate on cash (-10%) starts Feb. 6 after class!*

# Trading Game: Trading Assignment 1

- Buy three value and three growth stocks, investing between \$10,000 and \$20,000 in each.
- Keep them the whole semester!
- Deadline: make these 6 trades before next class, **Thurs. 1/25**
- Complete TA1 in the trading journal.
- Nothing to turn in until later in the semester.
- You are welcome to:
  - (1) Complete other trading assignments TA2-TA5 early
  - (2) Trade as freely as you otherwise like (max 300 trades)

# Trading Game: Trading Assignment 1

## TRADING JOURNAL

NAME:

*All due dates announced in class. See Appendices for Instruction and Grading.*

### TRADING ASSIGNMENT 1: VALUE AND GROWTH

Identify and buy three value and three growth stocks. I recommend you use the stock screener at <https://finviz.com/screener.ashx> as well as your own research (see endnotes).<sup>i</sup> Invest a minimum of \$10,000 (but no more than \$20,000) in each stock. Complete the table below. An example is provided in light gray text:

Name and Ticker of Stock	Amount Invested	Price per Share	Date of Trade	Value or Growth
0.) <i>Richmond Inc. (RIC)</i>	\$12,000	\$148.48	1/13/2024	Value
1.)				
2.)				
3.)				
4.)				
5.)				
6.)				

For *each* stock, explain what makes it “value” or “growth” in the space below. You should describe firm characteristics and ratios to make your case. (*Max 300 words.*)

(1) Write in your name.

(2) Make trades and complete the table.

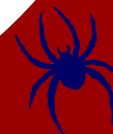

(3) Provide rationale.

(4) Save your file. No submission yet.
